

Automation Maintenance Agreements

Regular maintenance minimises the chance of service disruption and adds years to the life of your gate automation.

Guaranteed Performance, Greater Longevity

With over 50 years in the industry and with the support of market leading products HAMPDEN is well placed to deliver the peace of mind you need as the person responsible for managing and maintaining the automated gates you have on your site. **By locking in a scheduled service of the equipment early you will:**

- Limit any costly repairs
- Maximise the longevity of your investment
- Ensure the equipment continues to perform reliably
- Increase your warranty period from 1 year to 2 years - if an Automation Maintenance Agreement is entered into prior to installation completion

Most importantly by having a scheduled maintenance programme it will take care of a key aspect of your Health and Safety responsibilities.

Protect your Investment - contact Hampden today to establish a regular maintenance plan for your site automation
