St Dominic's Catholic Primary School

Hampden was recently asked to provide high-quality folded panel fencing and gates for an upgrade to selected areas of St Dominic's Catholic School in Auckland's Blockhouse Bay.

The new Folded Panel Fencing seamlessly blended in to existing panel fencing across the school, ensuring the overall aesthetics of the site were maintained. New vehicle and pedestrian access gates were installed to help control traffic flow in key areas, ensuring the safety of pupils, staff and visitors alike.
