Waiuku Primary School

Perimeter Security Fencing

Hampden was engaged by Waiuku Primary School and main contractor Greenstone Group to help improve the perimeter security of the school grounds and sports fields.

With considerable experience in school fencing projects, Hampden brought the following proven solutions to the table:

- 470m (approx.) of Chief Panel Fencing with various vehicle and pedestrian gate solutions
- 235m (approx.) of Pipe & Mesh Chainlink fencing and matching gates

Case Study - Waiuku Primary School

Unique Challenges Of School Sites

School fencing projects bring a set of unique challenges due to their location and the presence of children, staff and parents throughout the school day:

- Restricted delivery hours
- Health & Safety considerations due to the presence of school children
- Neighbouring property owners objecting to the fencing
- Vegetation that needed to be cleared prior to work commencing

Another Satisfied Customer

The Waiuku Primary School project ran smoothly, both on time and on budget, and without any notable incidents. The end result... another happy customer and a secure school.
